PROJECTS

MOVIE RECOMMENDATION BASED ON FACIAL EMOTIONS

We substantially enhanced movie recommendations by around 60%, incorporating real-time facial emotion analysis through Artificial Intelligence (AI), Convolutional Neural Networks (CNN), and Firebase technologies..

HANDWRITTEN TO TEXT CONVERSION USING ORC

Utilizing Optical Character Recognition (OCR), we seamlessly integrated both Handwritten and Text Documents. The implementation involved the Python Tesseract Library, which is machine learning-based. Achieving a user satisfaction rate of approximately 70%.

EXTRA AND CO-CURRICULAR ACTIVITIES

- Orchestrated and facilitated a highly impactful workshop, 'Datathon', in collaboration with Swecha organization, aimed at developing an AI-powered Large Language Model (LLM) specifically for Telugu language, resulting in enhanced natural language processing capabilities and improved linguistic accuracy .
- Led the coordination and execution of a Coding Contest specifically designed for junior participants within our club, attracting active participation from a substantial cohort of over 200 students..
